SUMMARY

Frontend-leaning Full Stack Developer with 2+ years of professional experience building and maintaining production web applications using Next.js, TypeScript, and Tailwind; Owns projects end-to-end, translating Figma designs into responsive, accessible UIs, deployment, performance optimization, and ongoing maintenance; Brings strong communication and organization, enabling effective collaboration and consistent high-quality user experiences

EXPERIENCE

Web Developer – T2 Marketing Communications – Remote

Apr 2025 – Present

- Owns end-to-end development of 4 public-facing production websites for multiple clients, including multi-brand organizations and an international client, using Next.js (App Router), TypeScript, Tailwind CSS, and Directus
- Translates desktop Figma designs into fully responsive layouts without mobile mockups, independently making layout and UX decisions that receive positive client and internal feedback
- Builds performant marketing sites with dynamic navigation, search, filtering, and server-side rendering; optimize images, data fetching, and accessibility, consistently achieving 90+ Lighthouse scores
- Collaborates closely with design, engineering, and product teams to align on requirements, timelines, deployment, and ongoing maintenance of live production sites

Full Stack Developer – Agility Consultants LLC – Remote

Sept 2023 – Mar 2025

- Contributed to internal USDA web applications supporting data submission workflows for state-level and federal users, including role-based access control and secure handling of sensitive information
- Refactored legacy dashboards and complex form-based UIs from vanilla JavaScript to Next.js (Pages Router), improving development speed, UI consistency, and maintainability by modularizing large code files
- Developed and maintained data-intensive dashboards and form workflows used by government employees and external submitters, ensuring consistent behavior across systems
- Implemented Section 508 accessibility compliance, ensuring proper tab order, screen reader compatibility, color contrast, and semantic labeling across all user interfaces

Paralegal – Fabricant LLP – Rye, NY

Jan 2021 – Apr 2022

Paralegal – Hach Rose Schirripa & Cheverie LLP – New York, NY

Sept 2019 – Jan 2021
